

ARGENTIUM[®]

THE FINEST SILVER

*“If silver is the new gold...
...Argentium is the new silver”*

The finest silver

Argentium is for companies who value quality and wish to rise above a crowded commodity market.

Argentium represents the bright future of silver.

Argentium defines quality

Purer

Argentium sets new purity standards for silver. Argentium is always purer than traditional sterling silver.

Natural beauty

Plating is prone to wear and tear and is commonly used on silver items to give the temporary illusion of purity. Argentium is the natural colour of pure silver through and through.

Brighter

Argentium is brighter than platinum, white gold and traditional sterling silver. It is the whitest of them all.

Longer lasting shine

Argentium is low maintenance, easy to care for and simple to keep clean.

Highly tarnish resistant

By applying an intensive test regime, we are confident that Argentium is the most tarnish resistant silver in the world.

Argentium is required to pass critical laboratory tarnish tests to recreate the effects of...

- Pollution
- Perspiration
- Ultraviolet light

Traditional sterling silver fails all of these tests, while Argentium achieves 100% success.

Responsible and ethical

Argentium has responded to increasing awareness and demand for the preservation of our natural environment and to conserve natural resources...

- Argentium guarantees traceability of its raw silver.
- It is certified that Argentium is produced using only recycled silver.

The mark of authenticity

This lustrous material deserves recognition. This is why use of the 'ARGENTIUM®' brand and in particular, the distinctive 'flying unicorn'  is encouraged to mark the authenticity of Argentium - the finest silver.

Look for the flying unicorn - a guarantee of unrivalled quality.

Marketing support

Argentium International is committed to marketing the Argentium brand and providing support to those using Argentium silver.
